

# Advanced Omnichannel Functionality.

# Addressed Mail

The Addressed Mail Module allows users marketers to deliver a more personalized WebAR experience to targeted mail lists whilst providing access to campaign response activity on a per recipient basis. Know exactly who did what! The Addressed Mail Module also enables personalization of splash pages, calls to action and even passing data through PURLs. [Click here](#) to see a sample data spreadsheet showing what data is returned when using this feature.

Immersive 360-Degree Tourism Video

# Digital Retargeting

The Digital Retargeting Module allows marketers to insert Facebook pixels and Google tags into the WebAR browser for the purpose of retargeting with ads on associated platforms. Use print to initiate targeted social media ads.

Augmented Reality Video Frame Containing Multiple Videos

# Geotagged Content

The Geotagged Content Module when available will enable campaigns with localized content and calls to action. This model will be perfect for national campaigns that require a localized area marketing output. One campaign, multiple geotargeted experiences and calls to action.

Interactive Scaled iPad with Playing Video

# Electronic Direct Mail (Email)

The Integrated Email Module allows marketers with mail lists that contain email addresses to deliver multi-touch communications across both physical and digital mail based on predefined rules and/or time frames such as “Mail not scanned”, “Mail scanned but CTA not taken”, or “14 days after mail send” etc.

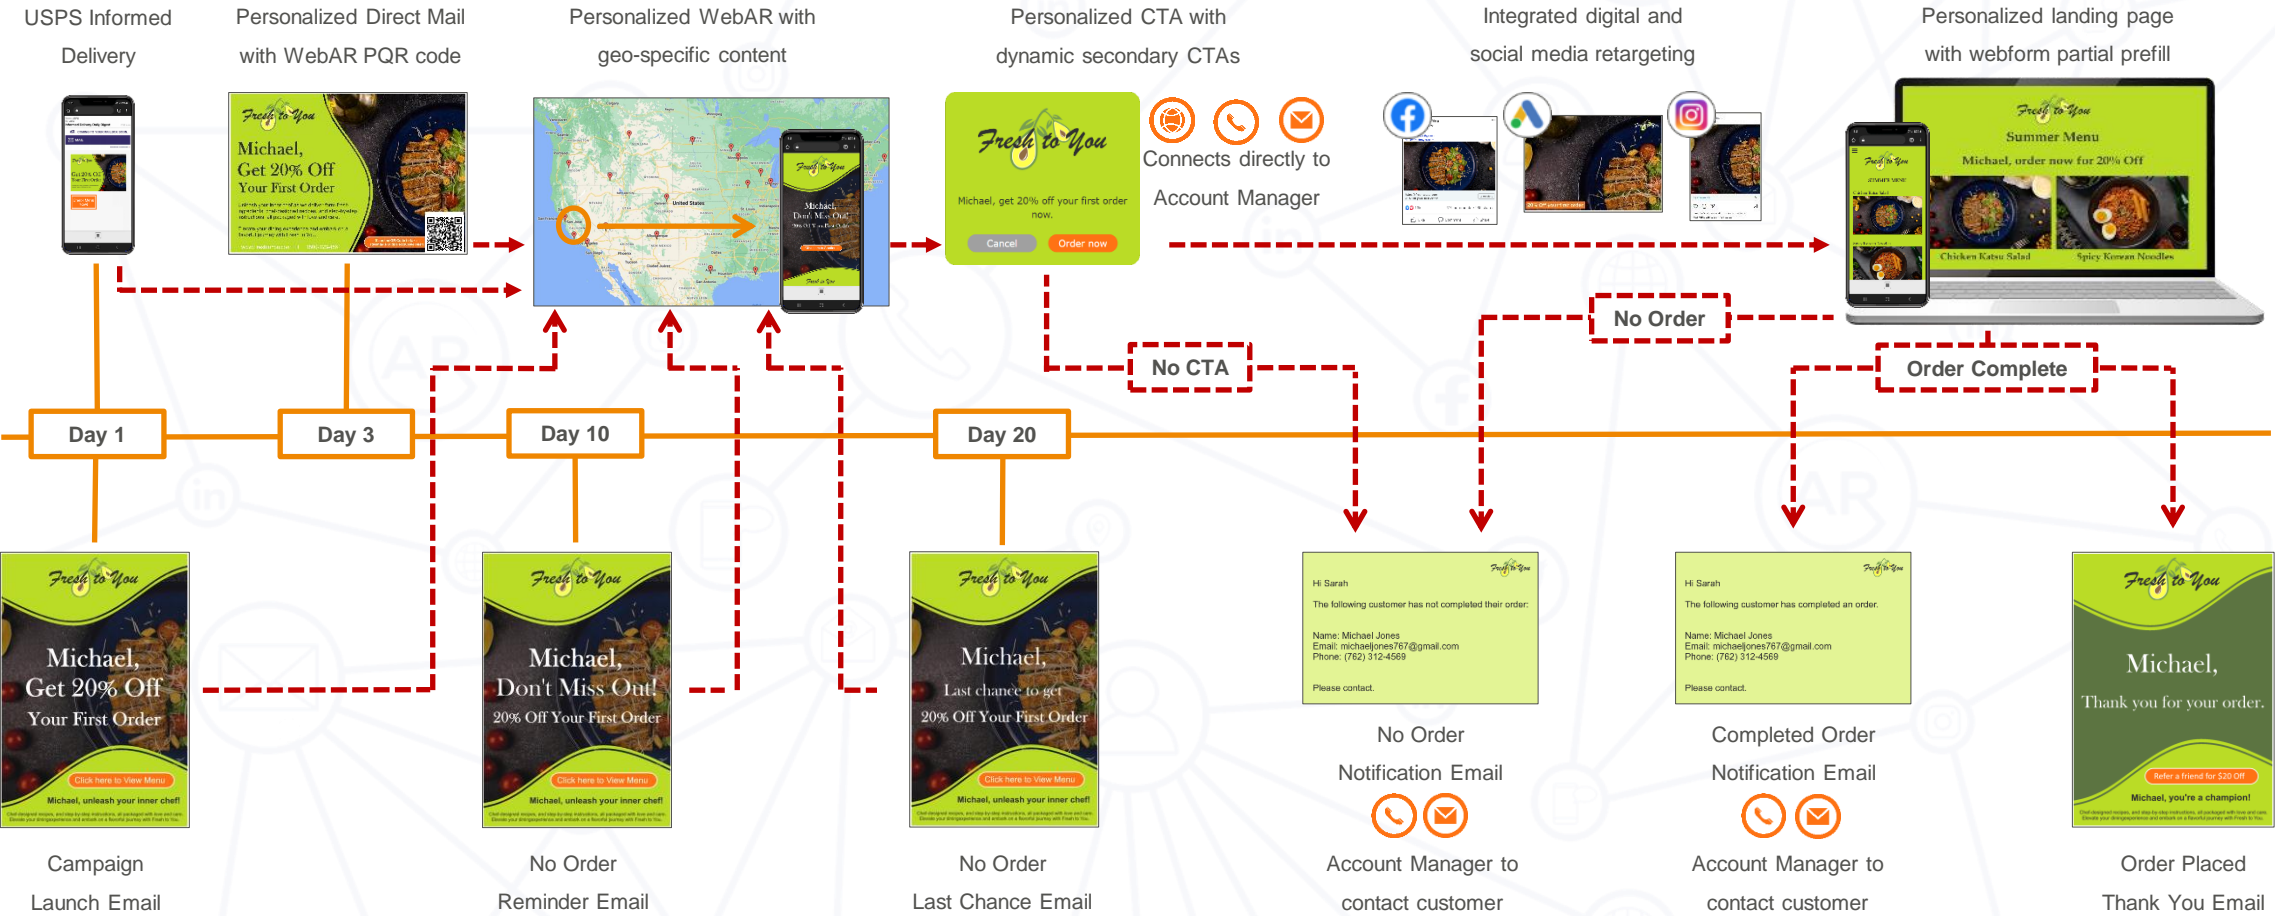

Interactive Scaled iPad and “Lil Chef” with Playing Video

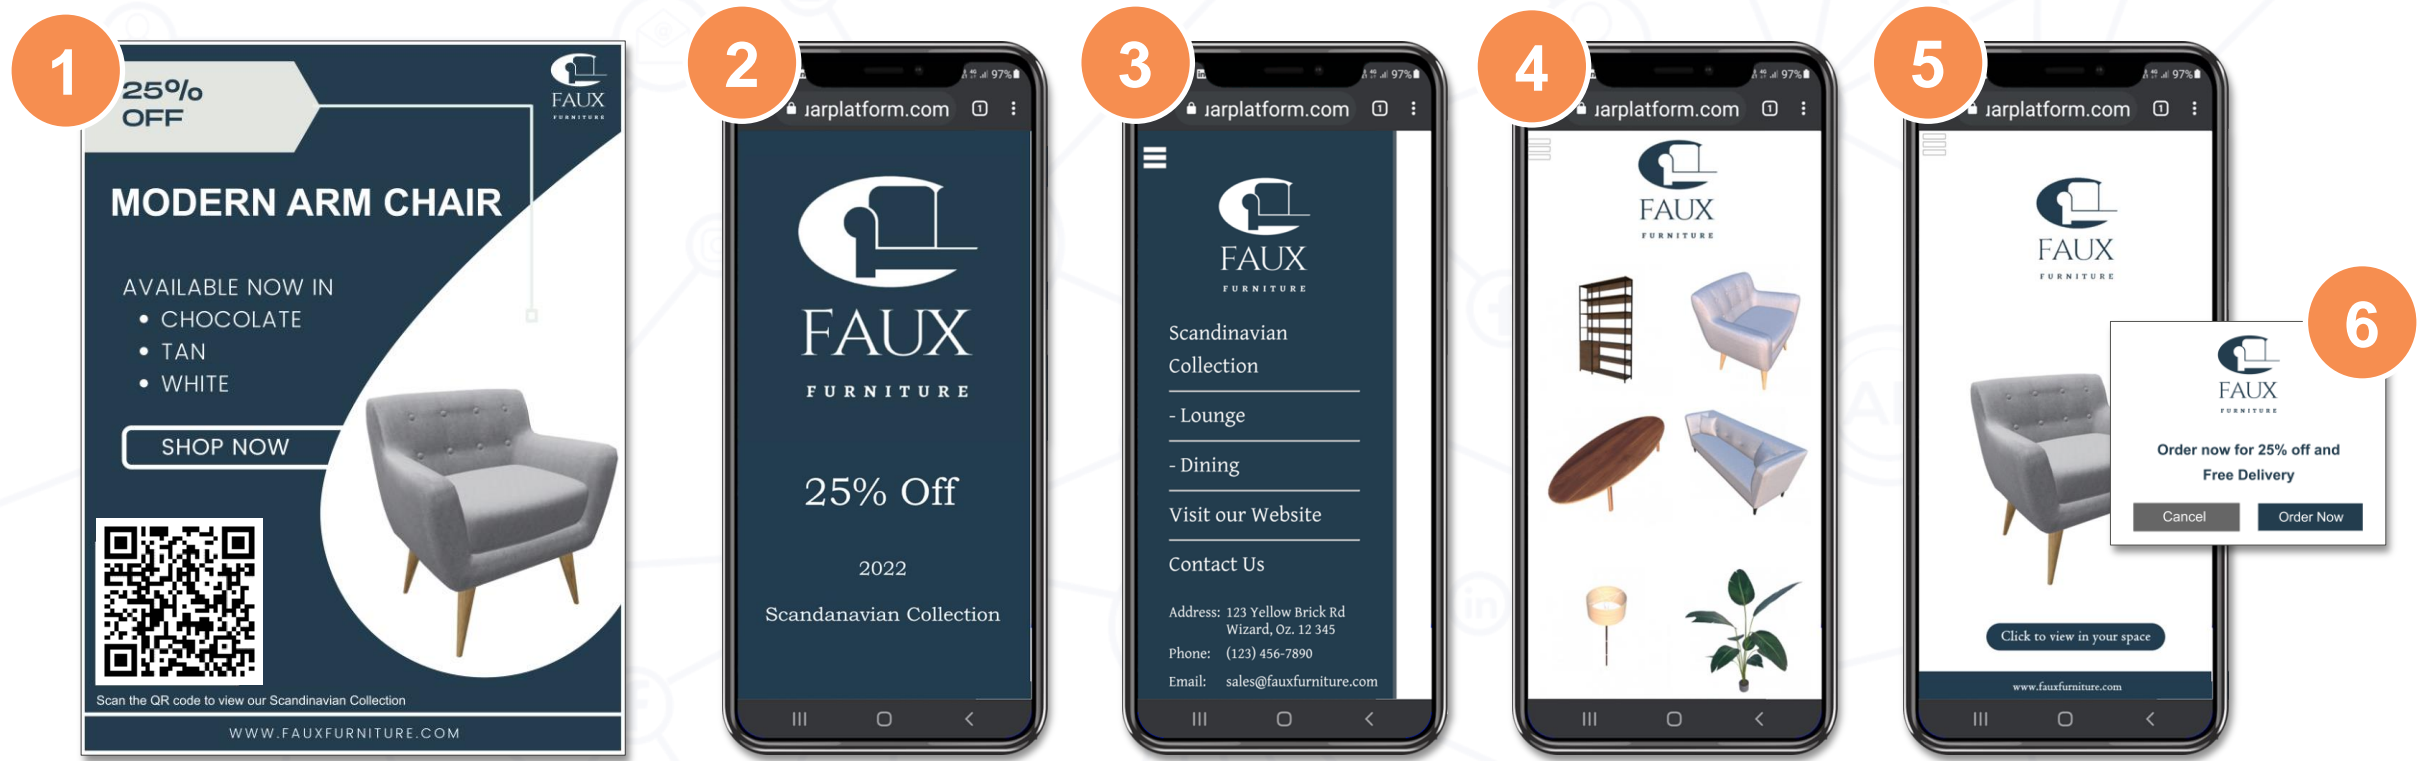

# Sample omnichannel program

An example of what can be achieved using USPS Informed Delivery, Addressed Mail, Digital Retargeting, Geo-Content and Integrated Email Modules in parallel.

# Catalog Module

The Catalog Module will allow users of the platform to set up multiple WebAR video or 3D campaigns that can be accessed via a single QR code that launches a web-based catalog that includes a side menu, multiple categories and links to additional web content such as a website or online store etc.
